## Suits Multiple Business Models

GP Travel Hub creates value for different businesses across the travel domain

### For OTAs, Tour Operators and TMCs:

Streamlined unified access to multiple third-party suppliers

### For Technology Providers:

Enhancement of in-house software with an extra connectivity module

### For Meta-Search Portals:

Quicker and simpler connectivity to new travel portals

### For DMCs:

Quick expansion of their own inventory

### For Airline/Cruise companies:

Upsell and cross-sell of auxiliary products and services (accommodation, transfers, etc.)

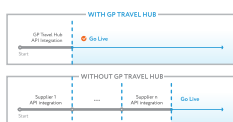

### For Travel Start-ups:

Quicker time to market with a reliable connectivity solution at hand

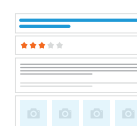

## Benefits
