GP Solutions

Product-based Implementation

We can use in-house products by GP Solutions as a solid foundation for tailor-made solutions delivered to our customers.

GP Travel Enterprise

Our flagship platform offers 150+ functional modules that can be customized by our team to automate your travel company's operations.

GP Travel Hub

One of the most powerful and popular systems in our suite, GP Travel Hub offers 80+ ready-made connectors to world-famous suppliers.

Our in-house products are perfect for:

Tour Operators   **OTAs**   **DMCs**   **TMCs**

Bespoke Software Development

In case you need to enhance your existing system or develop a solution from scratch, bespoke software development services by GP Solutions is the right choice.

Development From the Ground Up

We can create a completely new solution that is tailored specifically to match your business processes.

Redesign of Legacy Systems

We can take up redesign projects of any complexity to give your existing systems a new lease of life.

## Third-party Software Integration

We can enrich your solution with an external tool of your choice to fit seamlessly into your processes.

GP Solutions

Dedicated Development Teams

For long-term and large-scale development you can choose to allocate a dedicated development team from GP Solutions. This option provides a lot of benefits compared to in-house staffing.

Focus on Travel Industry

We are one of the few specialized software providers focusing on the travel industry. We've made it our major focus and stuck to it throughout almost two decades of our history. This makes us fit for travel businesses both new and established, and helps us provide them with professional technological advice and expertise that's been time-tested and proven in hundreds of projects.

GP Solutions

Individual Approach

The benefits of understanding the client's requirements and business go far beyond a successfully delivered digital system. Our main focus is to find the right solution to your tech challenge. That is why, as the project requires, we can stick to a ready-made product, custom development - or a mixture of both.

GP Solutions

Exceptional Team

Our success wouldn't be possible without our team of 200+ exceptional professionals coming from business analysis, software engineering, testing and our fundamental areas. We're always looking for new talents and keep nurturing our teams in a productive and creative working environment.

GP Solutions

Outstanding Reputation

Throughout the years, we've earned industry-wide acclaim supported by the following acknowledgements:

- Recognized among the 2017 Global Outsourcing 100 companies
- Ranked among Top 15 Web & Software Development Centers in Belarus
- One of the winners of the World Travel Awards 2012
- Awarded with the Best IT Solution for Tour Operators 2014
- Certified with ISO 9001 Quality Management
- Accepted as a resident of Hi-Tech Park
- Consistently earning clients' accolades as seen in our testimonials

GP Solutions

Client Testimonials

AIR CANADA

"The team here at ACV is very happy with the quick release cycles and GP's willingness to support us with any test and fix system issues. I see what the team does and it is highly appreciated."

Sven Schiller
Director Information Technology
Air Canada Vacations

Africasafari.co.uk

"Due to their experience in travel IT we've selected GP Solutions to work on a custom project for Africa Safari, which involved interaction with Amadeus. We found GP team to be professional, dependable and responsive. We are pleased to recommend GP Solutions GmbH as a reliable travel technology partner."

Claus Palmgren Jessen
Managing Director
Africa Safari

VERSONIX

"The quality of work is consistently high, and all projects are delivered within the set timeframe. GP Solutions sets themselves apart through their quick turnarounds and affordable pricing."

Victor Velton
President
Versonix Corporation
