Dedicated Development Teams

For long-term and large-scale development you can choose to allocate a **dedicated development team** from **GP Solutions**. This option provides a lot of benefits compared to in-house staffing.

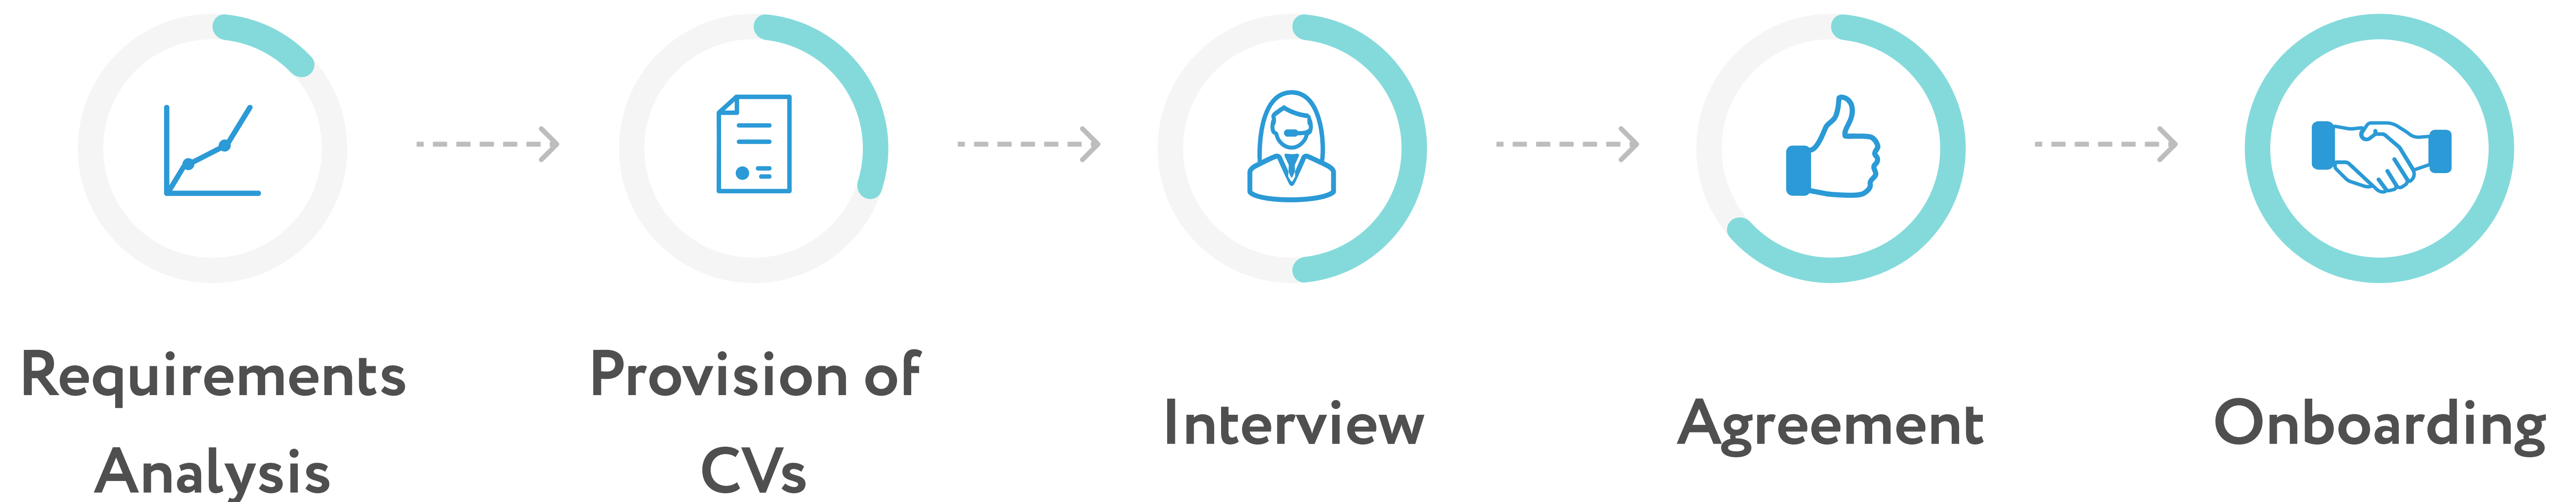

Assemble Your Team with GP Solutions

GP Solutions is able to cover practically any of commonly recognized IT **specializations** within a software development team.

 Front-End Developer	 UI/UX Specialist	 Back-End Developer
 Project Manager	 Mobile Developer	 Business Analyst
 Database Engineer	 QA Engineer	 System Administrator
 DevOps Engineer	 Support Specialist	 System Architect

Our Allocation Process

Once the Customer decides to on-board IT specialist from GP Solutions, we launch our allocation procedure typically going through a set of standard phases.

Our IT specialists can be allocated on your project as a team or individually with full- or part-time engagement

If the right specialist is not on our staff yet, we can engage our HR department to find the one you need.

Advantages

Instant access to **qualified resources** with necessary technical and domain knowledge;

Resources available for **team rotation** and **rapid team extension**. Even if started with just one developer, the team can promptly be expanded;

Ability to create a team with a **custom composition** of specific skills and experience;

Your **processes and procedures** adoption by the Dedicated Team. This optimizes production, minimizes costs and time for knowledge transfer.

Client Testimonials

"With tight deadlines looming, GP Solutions delivered the proof of concept on time, drawing praise from clients. Their professionalism and dedication were vital components of the project's success."

Stan Nazarenko

CEO

Piprate

"The team here at ACV is very happy with the quick release cycles and GP's willingness to support us with any test and fix system issues. I see what the team does and it is highly appreciated."

Sven Schiller

Director Information Technology

Air Canada Vacations

"The quality of work is consistently high, and all projects are delivered within the set timeframe. GP Solutions sets themselves apart through their quick turnarounds and affordable pricing."
