# GP Travel Hub

GP Travel Hub is a unified APIs Aggregator for integrating with various systems of consolidators, GDSs and travel product providers. Its solid interface helps you interact with multiple travel APIs in real time, directly receive current offers and prices, manage, keep and synchronize the data.

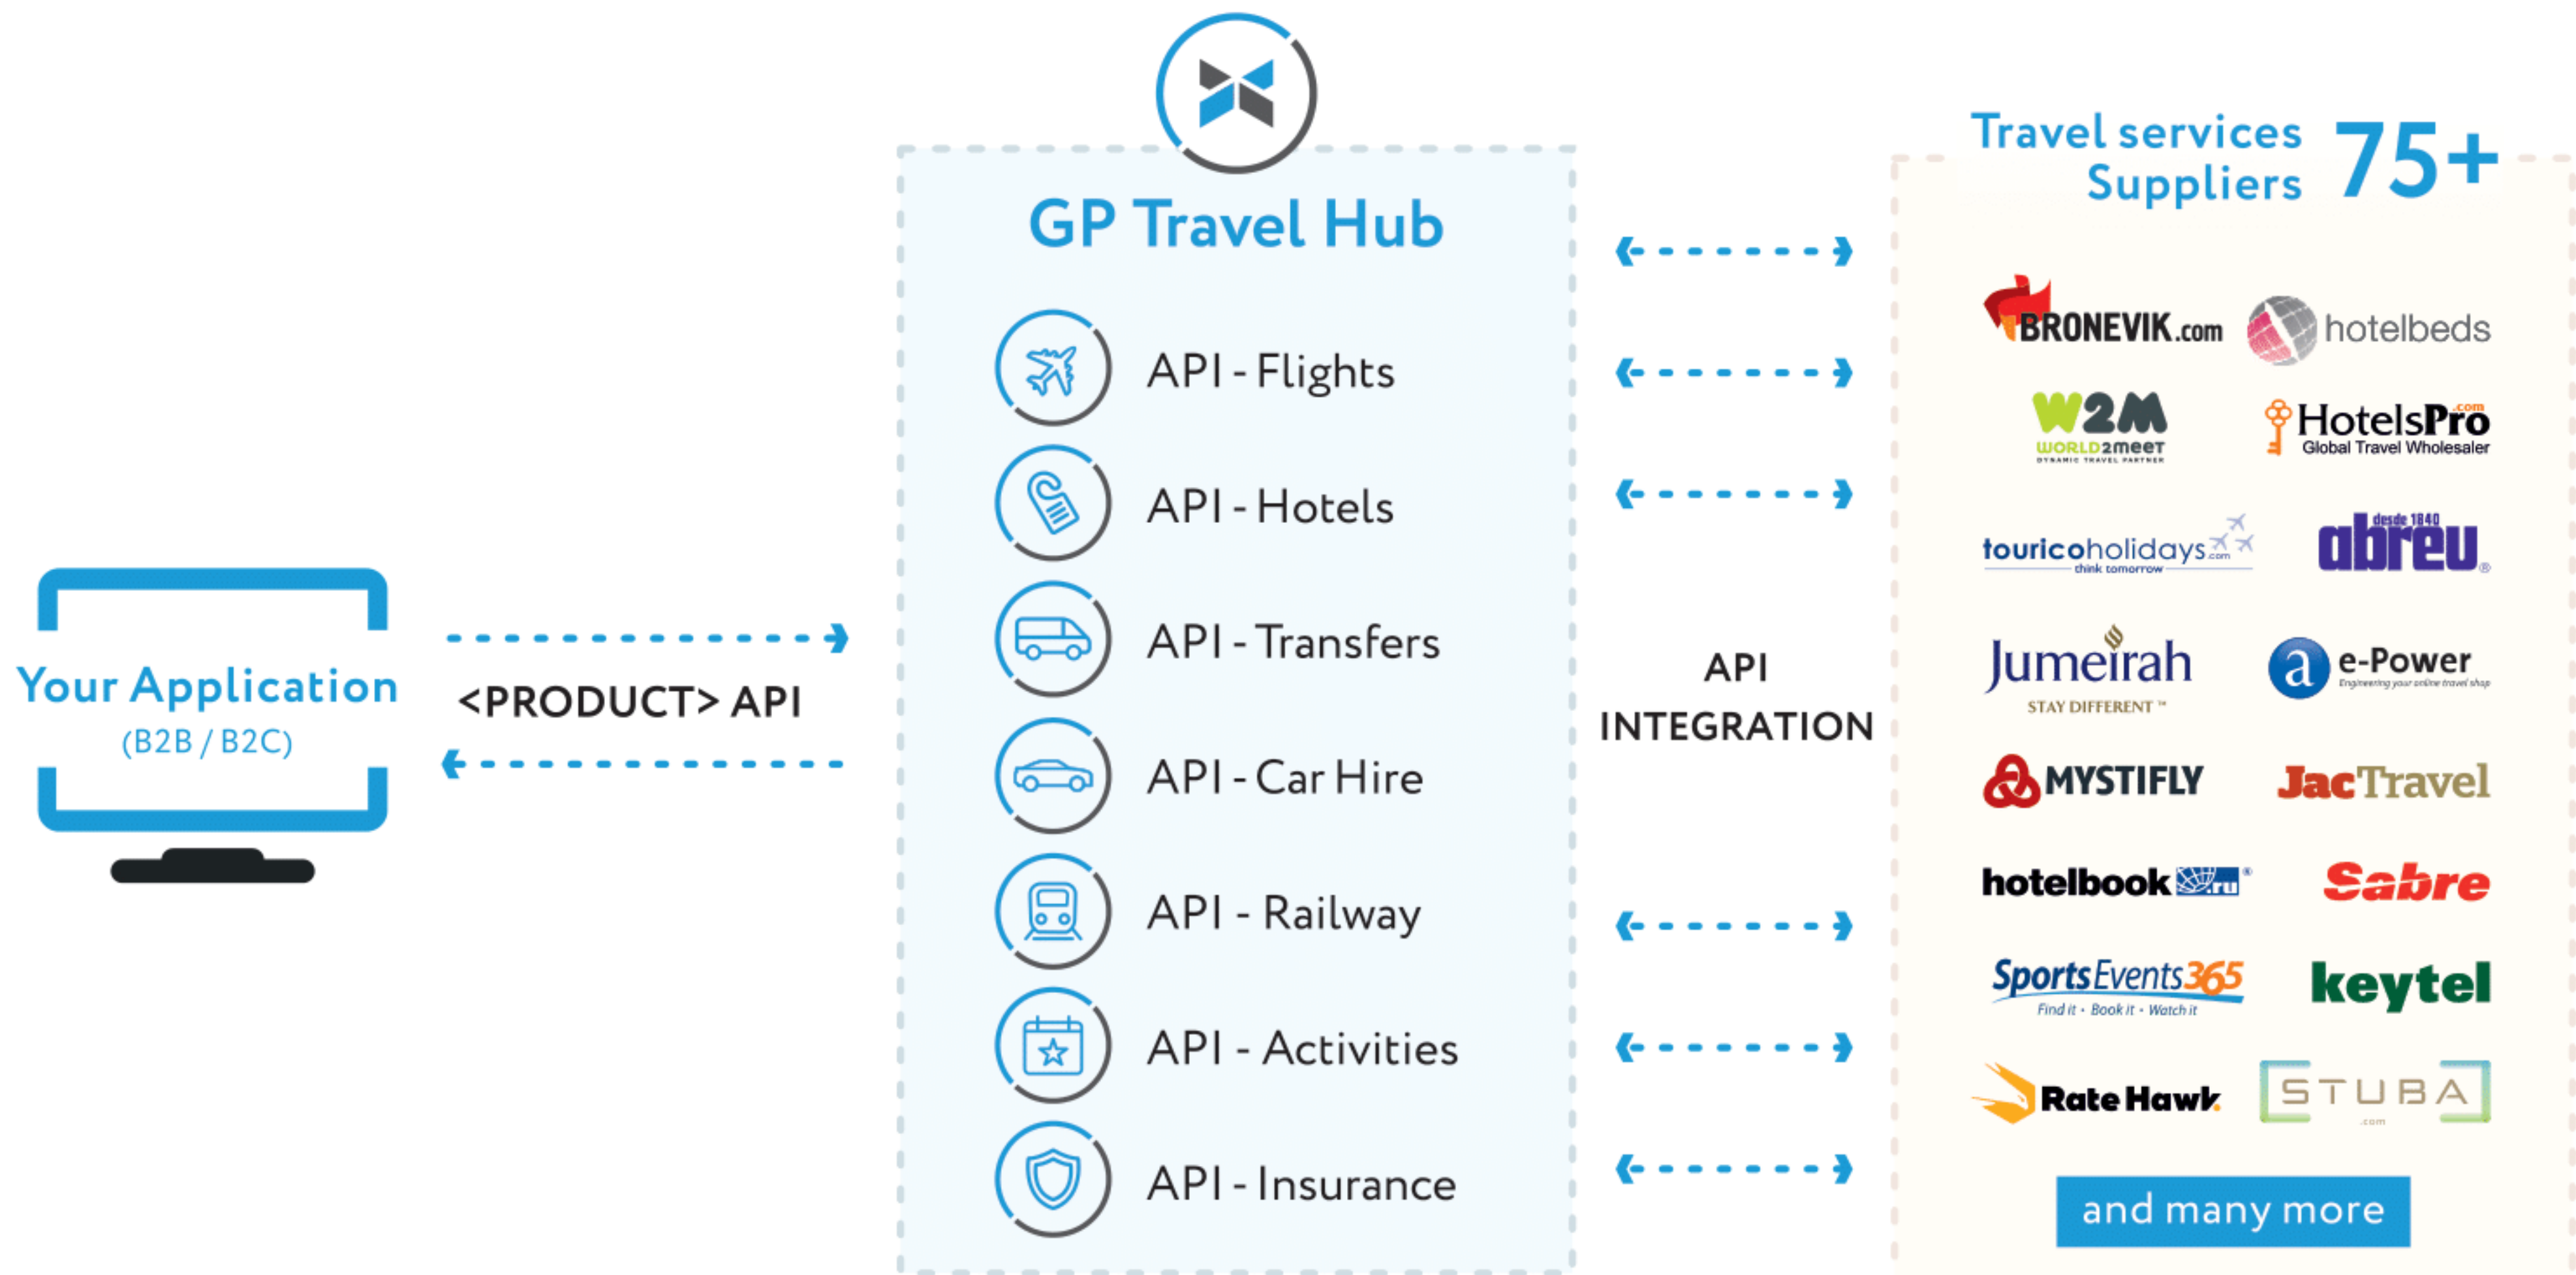

## GP Travel Hub supports integration with:

- ✓ Global Distribution Systems (GDSs)
- ✓ Hotel Consolidators
- ✓ Channel Managers
- ✓ Local Tour Operators
- ✓ Transfer Providers
- ✓ Car Rental Companies and Consolidators
- ✓ Railway Service Providers
- ✓ Activities & Excursions Providers

GP Travel Hub is a purely technical back-end solution. In order to activate any connector the client must first conclude a commercial agreement with each selected supplier.
