75+ suppliers already connected

Quick and cost-efficient new **supplier integrations**

5 Structured and documented APIs per each product type

99,9% uptime rate
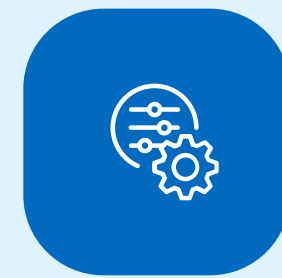

Highly customizable and adaptable to different business models:

- ✓ Flexible setup of suppliers' response time-out

- ✓ Supports different approaches to hotel deduplication (mapping)

- ✓ Possibility to implement flexible search requests

- ✓ Supports diversity of tariffs and rates

- ✓ Multilingual and multicurrency support

B2B Module

Create a single convenient workplace for your B2B partners, who can easily search for the best prices among all available travel suppliers, book them online in an instant and keep track of all reservations

B2B Key Features

Unified Booking Platform
Provide your partners with a single access point to search and book offers from both 3rd-party suppliers via API and your own inventory

Sales Automation
Use our powerful booking engine to fully automate your multi-channel sales, from search to booking processing and payment

Partner Log-ins
Create branded partner accounts with direct access and private accounts for a complete online booking experience

Responsive Interfaces
Improve productivity and increase user satisfaction with convenient cross-browser and mobile layouts

24/7 Availability
Remove barriers to unlimited booking opportunities so that your partners can search and book online anytime

Analytics
Gain extra visibility into your partner performance with detailed sales reports to keep tabs on your network efficiency

Multi-level Distribution
Build your multi-level networks of partners and sub-agents to expand your sales capabilities

Multi-lingual/Multi-currency support
Transact your business to international markets to serve and grow the customers exponentially with our platform

B2C Module

Sell travel products both online and offline directly to your end customers
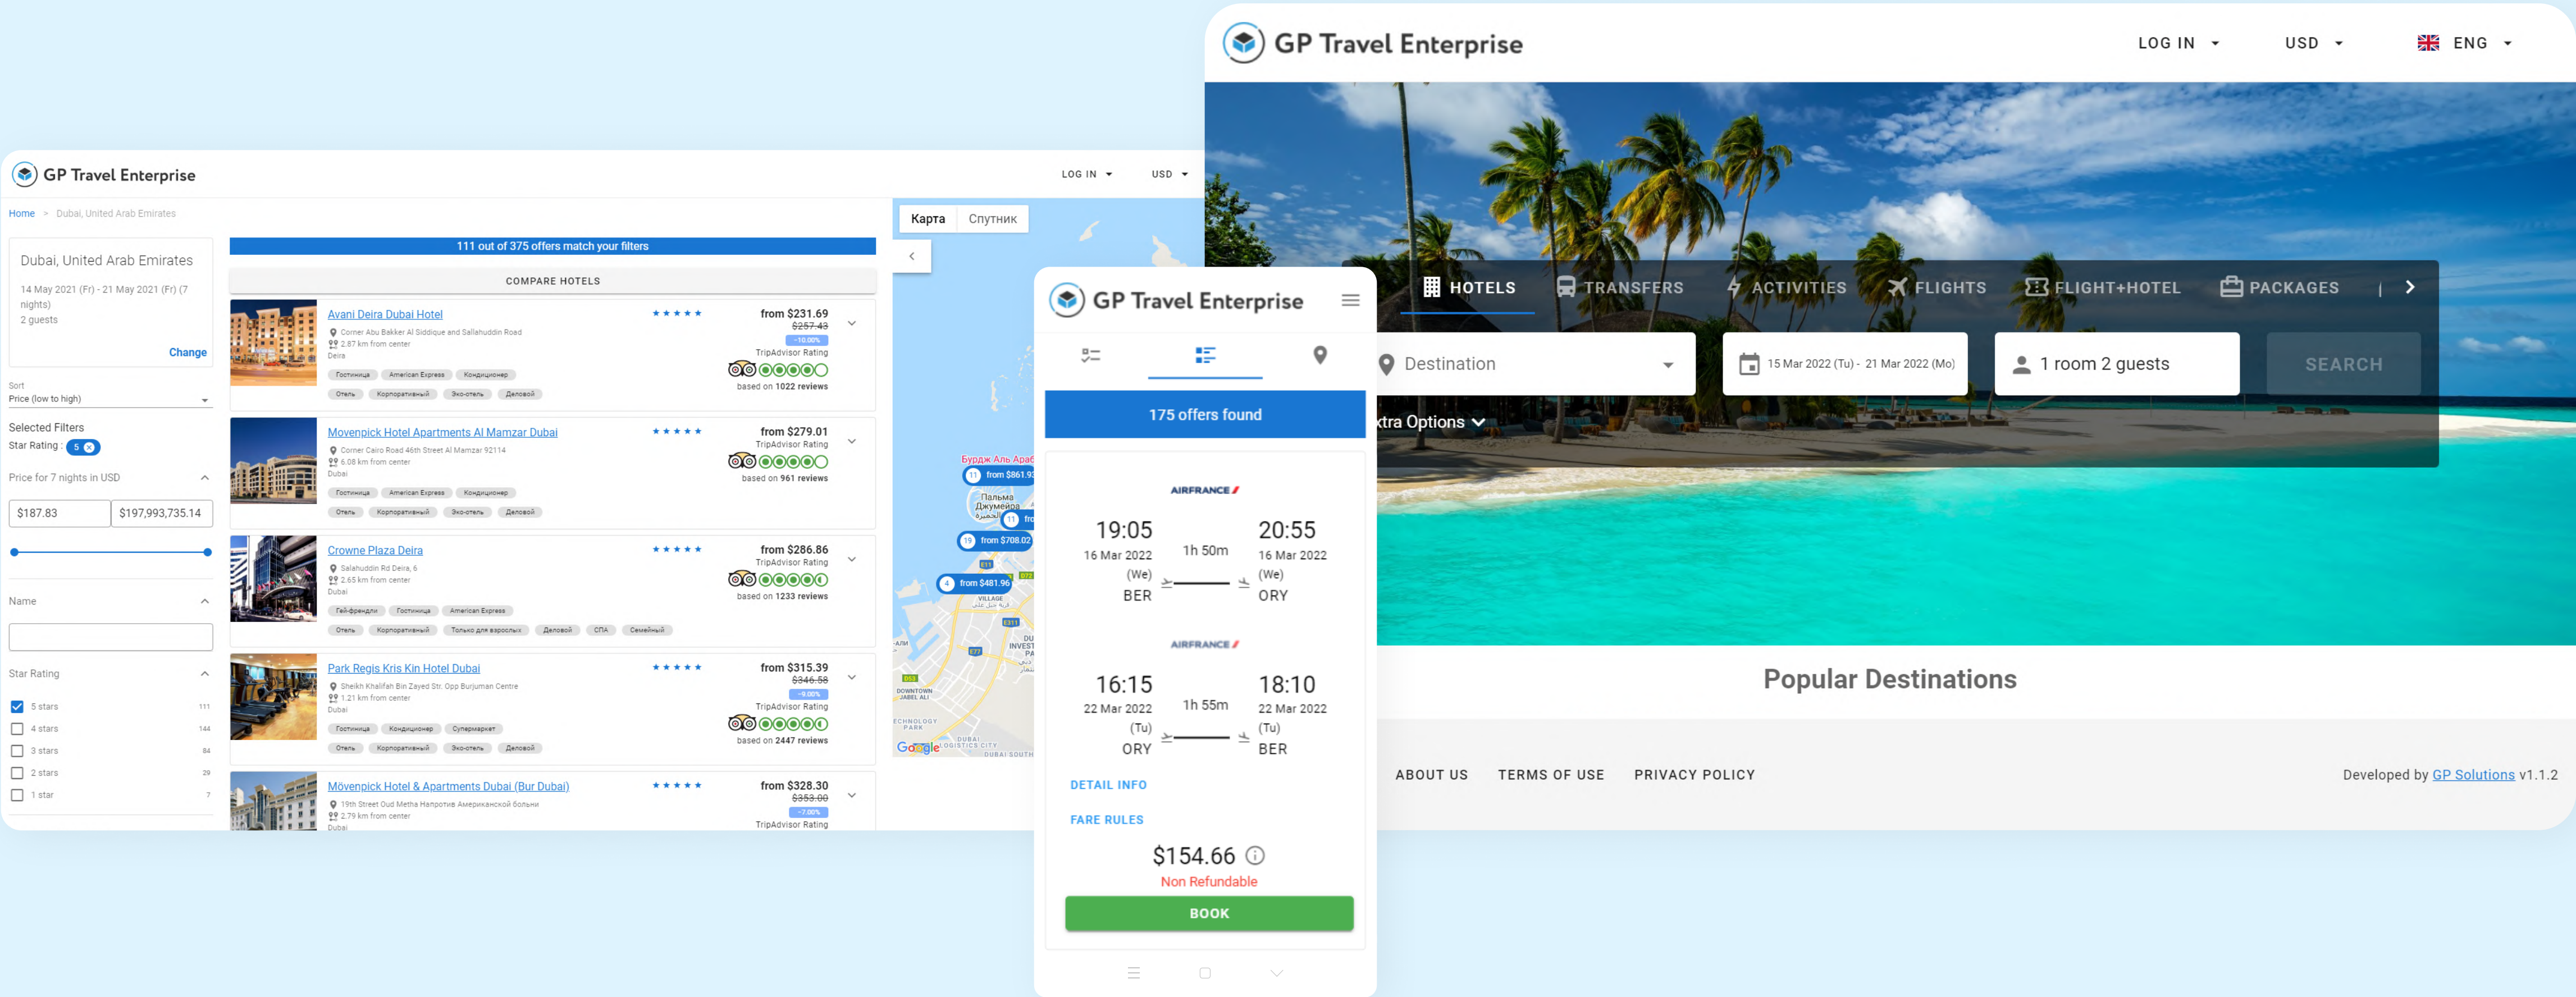

B2C Key Features

Unique design and brilliant look & feel always play a crucial role in B2C sales. That is why it is so important to have a fresh and unique website to stand out from your competitors
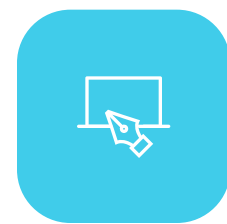

Easy Customization

Built on a template, your B2C portal can be customized anytime without coding. To do it, your admins can easily change logos, colors, and more right from their dashboard.

Built-in CMS

From basic to advanced, all your content management needs are covered in the embedded CMS that requires no extra efforts or tech skills to handle it.

Mobile-Friendly UI

Our B2C websites offer responsive, mobile-friendly interfaces out of the box. Now you can reach mobile audiences and help them book across any devices.

Scalability

Diversify and build multiple booking websites for different audiences with targeted content and design — all on top of a single platform.
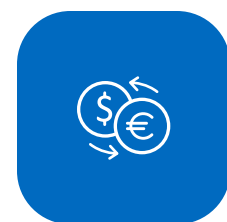

Multiple Languages & Currencies

Our solution will help you serve international audiences. For this, add as many languages and currencies as required to let your users switch between them easily.

Enterprise Management Module

Back-office for configuration and full control over your travel business

Enterprise Management Key Modules

Reservation Management

Business Rules

Finance Management

Analytics
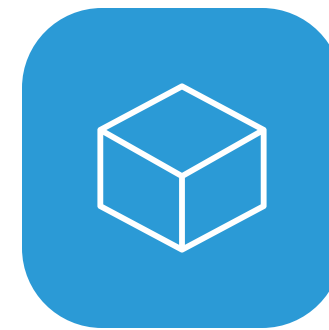

Travel Packages

CRM

Communication & Collaboration

Sales and Pricing Optimization

Corporate Travel Management

Gateways Module

Ability to integrate with external systems or corporate software

Integration with online payment services

Integration with banks for import of currency exchange rates

API Integration

Data Export and Import

Gateways module allows you to integrate with any third-party system of your choice, which is technically capable to interact via API. And we've already done dozens of such integrations which are now available as ready-made modules for you!

Ready-Made Integrations

Connect billing, analytics, and web mapping tools out of the box with no extra efforts required

CLIENTS & TESTIMONIALS

Client Testimonials

EF Education First

"I can highly recommend the services of GP Solutions. During the past 1.5 years, our company has been working with GP Solutions on a new project of ours. The company offers high quality services. We can say that we have always been satisfied by their work."

Dennis Behnsen

Vice President

TOURCOMPASS

"We found GP team to be professional, dependable and responsive. We are pleased to recommend GP Solutions GmbH as a reliable travel technology partner."

Claus Jessen

Managing Director

AIR CANADA

"The team here at ACV is very happy with the quick release cycles and GP's willingness to support us with any test and fix system issues. I see what the team does and it is highly appreciated."

Sven Schiller

IT Director

Client Testimonials

Hotelplan

"GP Solutions provide high-quality services and we have always felt that they care about our needs. Their strong expertise in travel IT makes it much easier to convey our requirements and find optimal technical solutions. We highly recommend the services of GP Solutions."

Marc Blaser
Director Projects & E-Business

TRAVELER'S GUILD

"Over the years of partnership GP Solutions has proven to be a reliable IT vendor with great vision and understanding of the travel industry in general and our business requirements in particular."

Abdulrahman Aziz
Project Manager

TALLINK
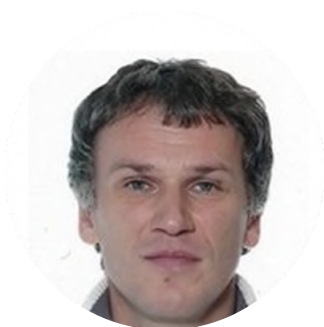

"We appreciate how promptly GP's specialist were able to respond to us and if needed to tailor the product's details to our preferences. Another important practical aspect is that GP's specialists always had a clear understanding of what are our business needs are."

Toomas Susi
Head of IT Department
